

TMA OPERATOR/TRAFFIC CONTROLLER

Our employees are the lifeblood of what we do and we are seeking reliable, enthusiastic and hard-working individuals that are passionate about safety and customer service

If you do want what we are offering, please only contact us if you absolutely tick all these boxes. You must be a person who...

- Has Truck Mounted Attenuator operating experience in the Metropolitan area - this is an advantage but not essential
- Holds a WA Unrestricted HR Class driver's licence
- Holds current Basic Worksite Traffic Management & Traffic Controller (BWTM & TC) accreditation
- Resides in the Metropolitan area
- Is able to pass a pre-employment drug & alcohol test and medical - you should also know that we test ongoing and yes, we have a 'zero tolerance' policy
- Is well presented and physically fit and healthy - this is a hands on role that will require reasonable levels of physical activity
- Is reliable, punctual and reliable. Yes, we repeated 'reliable' because if we can't count on you then that will count you out!
- Is flexible - you must be prepared and able to work long shifts with early starts, night shift and weekends - this will most definitely be part of the role, so if you're not up for that please move on to the next vacancy
- Is prepared and able to work away from home - this could vary from a night to several weeks
- Finally, and most importantly - you must be a team player!
